
John F. (“Jack”) Gallagher

Jack Gallagher is the Chief Executive Officer and principal owner in gTANGIBLE Corporation (CAGE 5ST11), a service-disabled veteran-owned small business (SDVOSB) that provides tangible results to its Government and business clients. Formed in late 2009, gTANGIBLE has experienced significant growth and success. It currently has three lines of service business: 1) International Program Support, 2) National Security Programs Support, and 3) Organizational Development. The company currently provides government contracting support for the Department of State, the United States Air Force, and the United States Navy. It has a prime contract - Navy Seaport-e in the SDVOSB lane, a team member on GSA Alliant (Smartronix Team 50) and the Air Force’s CAAS IV IDIQ (KEYW Corporation). Prior to launching gTANGIBLE, Jack was a Sector Chief for the Operations & Security Sector (Senior Vice President) within ManTech’s Security & Mission Assurance Corporation (MSMA). He had profit and loss responsibility for over 100 government contracts, \$165 million in annual revenues, and approximately 800 security, intelligence, and counter-threat analysis professionals.

He is a 1981 graduate of the United States Naval Academy (USNA). His service in the military included the duties and responsibilities of a Surface Warfare Officer in the United States Navy from 1981 to 1991. Jack is a disabled veteran that served in three destroyer/guided missile frigate type vessels. He achieved the Surface Warfare Officer qualification as an Ensign. Proud of his ship driver heritage, he brings leadership and a results oriented approach to those efforts and organizations he leads.

Jack Gallagher has had significant academic achievements. He has a Master of Science in Engineering Science (concentration in Aeronautical Engineering), 1988. He graduated with distinction (3.8 on 4.0 scale) from the Naval Postgraduate School in Monterey, California as part of the Weapons Systems Engineering curriculum. He was presented the Naval Sea Systems Command Award for his thesis: Combat Simulation of the Tomahawk Cruise Missile in Support of the Land-Sea Battle. He received a Bachelor of Science in 1981 from USNA where he graduated with Merit (55 of 969 graduates). Jack is a New York State Regents graduate in 1977 from Tri-Valley High School in Grahamsville, New York. He was the school’s Valedictorian.

He began his civilian career at Mobil Oil in 1991 where he built information systems as a team leader. Jack went on to establish (one of two principal owners) software development companies Prosoft Systems International and Prosoft Systems UK. In 1997, he successfully coordinated the acquisition of his second start-up company, MaxTech, Inc. by General Electric (GE). At GE Capital Consulting he was the Managing Director for its Eastern Region. Prior to joining ManTech International in 2005, Jack established expertise and experience in the leadership of start-up companies, business development consulting, intermediary efforts in business mergers and acquisitions, creating information technology solutions, project management, and company building.
